## CHILD FORM

Dear New Patient,

We are glad that you have chosen Your Family Psychiatrist to provide this important aspect of your child's health care. We are committed to providing your family with the most caring, professional, and confidential services possible. Our unique office arrangement is meant to bestow a more comfortable and relaxed environment than is customary in most physician offices. The first appointment is a complete Psychiatric Evaluation, which entails reviewing medical, psychiatric, social, and family history. Please flip the light switch in the waiting room that corresponds to your clinician upon arriving for your initial and all future appointments.

### 1) INITIAL PAPERWORK

The Child Intake Questionnaire is required to be completed **prior** to the appointment. The doctor needs **ALL** the requested information in order to make an accurate differential diagnosis. If you arrive late or do not have the paperwork completed by your appointment time, the evaluation may be abbreviated in order to stay on schedule and not delay the next patient's appointment. We try our best to stay on schedule for our patients so you are never waiting long to see your doctor!

### 2) FINANCIAL POLICY

Payment is expected prior to being seen by your psychiatrist. We accept all major credit cards and cash if paid with exact change. We do not keep cash at our office. The following is a brief list of services:

Initial Evaluation \$315.00

Follow-up \$150.00

### **Regarding Insurance**

We will provide you with documentation necessary to file an insurance claim on your own if your insurance allows us to do so. Your insurance plan may reimburse you directly. Please contact your insurance company to determine your benefits. We do not accept assignment of benefits and do not participate in any network. Your Family Psychiatrist will be considered an out-of-network provider by your insurance plan.

### **Missed Appointments**

Unless canceled at least 2 business days in advance (48 hours prior notice not counting weekends), our policy is to charge for missed appointments at the full fee. Your appointment time is reserved for you. Please help us to serve you better by keeping scheduled appointments.

I have read, acknowledge and agree to abide by the above financial policies regarding service fees and missed appointments.

## Credit Card Charge Authorization

I understand that full payment is required at the time of service by either cash or credit card. Full payment is also required for missed appointments and cancellations with less than 48 hours prior notice (not counting weekends).

I also understand that the financial responsibility for services provided is mine, and that I must file for any insurance reimbursement to which I may be entitled because Your Family Psychiatrist, PLLC will not file insurance claims on my behalf.

I understand that the credit card listed below will be charged for services rendered and for the missed and cancelled appointments with less than a 48-hour notice. If the credit card charge is denied, I will be billed separately for the appointments. Your Family Psychiatrist will not schedule any further appointments until I pay all outstanding balances.

I agree to call and notify the receptionist in advance of my next scheduled appointment if my address, phone number, or responsible party has changed.

I hereby authorize Your Family Psychiatrist, PLLC to charge my credit card for services rendered to me or the patient whose name appears below (and for appointments missed or cancelled with less than a 2-business-day-notice) at a rate of \$315 for the initial appointment or \$150 for each follow-up appointment.

## TELEPSYCHIATRY INFORMED CONSENT

Telepsychiatry is the delivery of psychiatric services using interactive audio and visual electronic systems where the psychiatrist and the patient are not in the same physical location. Your Family Psychiatrist, PLLC allows its psychiatrists to perform telepsychiatry after the initial face-to-face evaluation, and between annual face-to-face re-evaluations, but only through the telemedicine service provider Doxy.me, LLC. The interactive electronic systems used by Doxy.me incorporate network and software security protocols to protect the confidentiality of patient information and audio/visual data. These protocols include measures to safeguard the data and to aid in protecting against intentional or unintentional corruption.

### Potential Telepsychiatry Benefits:

- Increased accessibility to psychiatric care.
- Patient convenience.

### Potential Telepsychiatry Risks:

- Information transmitted may not be sufficient (*e.g.*, poor resolution of video) to allow for appropriate medical decision-making by my psychiatrist.
- Delays in psychiatric evaluation and treatment could occur due to deficiencies or failures of the equipment.
- Security protocols can fail, causing a breach of privacy of my confidential medical information.
- In rare cases, a lack of access to all the information that might be available in a face-to-face visit, but not in a telepsychiatry session, could result in the omission of care involving other health problems or possible adverse drug interactions.

If I decide that the benefits outweigh the risks, I may request telepsychiatry sessions when I schedule follow-up appointments. If my psychiatrist agrees, I will be scheduled for a telepsychiatry session, and I will be sent an internet link (to <http://Doxy.me>) with instructions to log into the “waiting room” immediately prior to my scheduled appointment.

### My Rights:

- (1) I understand that all laws protecting the privacy and confidentiality of medical information also apply to telepsychiatry.
- (2) I understand that all the Texas rules and regulations which apply to psychiatry also apply to telepsychiatry.
- (3) I understand that my psychiatrist has the right to withhold or withdraw his consent for the use of telepsychiatry at any time during the course of my care.
- (4) I understand that I have the right to withhold or withdraw my consent for the use of telepsychiatry at any time during the course of my care, and withdrawal of my consent will not affect any future care or treatment from my psychiatrist.

### My Responsibilities:

- (1) I understand that I must be physically within Texas (including offshore State waters) to be eligible for telepsychiatry, and my psychiatrist can send prescriptions for medications only to Texas pharmacies or addresses. I will inform my psychiatrist as soon as my session begins of my physical location.
- (2) I will ensure the proper configuration and functioning of all my electronic equipment prior to my session because the computer, tablet, or mobile telephone I use must have working camera and audio input so that my psychiatrist can see and hear me in real time.
- (3) I will not record any telepsychiatry sessions without written consent from Your Family Psychiatrist, PLLC, and I understand that my psychiatrist will not record any of our telepsychiatry sessions without my written consent.
- (4) I will inform my psychiatrist as soon as my session begins if any other person can hear or see any part of our session.
- (5) If I lose my connection during a session, I will immediately attempt to log back into the <http://Doxy.me> “waiting room”.
- (6) If the audio I am receiving during a telepsychiatry session is not complete and clear, I will attempt to let my psychiatrist know or telephone Your Family Psychiatrist, PLLC to schedule a new appointment.

### Patient Consent to the Use of Telepsychiatry

I have read and understand the information provided above regarding telepsychiatry. I hereby give my informed consent for the use of telepsychiatry in my medical care and authorize my psychiatrist to use telemedicine in the course of my diagnosis and treatment. I agree to hold Your Family Psychiatrist, PLLC and its psychiatrists harmless from injuries or omissions that may be related to the malfunction or technical failure of equipment or system encryption.
